

**MEETING OF MAYOR AND BOARD OF ALDERMAN**

**PUBLIC WORKS REPORT**

**01/24/2022**

**WATER / GAS / SEWER / SEWER LAGOONS / STREETS / PARK**

**Item 1. Water**

In Month of December 2021 we produced 13.380 MG of finished water.

Max Day was 0.554 MG.

Min Day was 0.293 MG.

Ave Day was 0.431 MG.

Sanitary Survey for water system and tanks scheduled for 01/31/2022 with Dr. Byrd from TDEC.

Repaired five water leaks within system.

Two water taps were made in system.

Need repairs at out-of-town water booster station.

High service pump and motor have been replaced in front clear well room at water plant by NWS.

**Item 2. Gas**

Gas survey with TPUC has been scheduled for month of February.

We still need to bypass gas regulator station at Richland Hills entrance from accident.

We did make three gas taps in system.

Monthly sniff tests have been done in gas system.

**Item 3. Sewer / Sewer Lagoons**

Motors and pumps at sewer lagoons are clogged with debris waiting for combo truck to clean.

**Item 4. Streets**

Flashing light has been installed at Hwy 70 and Hwy 59.

Still trying to find time to reset speed bumps in Richland Hills

Need to order cold mix for potholes in streets.

**Item 5. Park**

Need to put cable around new park area.
