Re: Orgen Global Inc.

The town of Mason Tennessee is worthy of and can benefit from a new improved and innovative future. Orgen Global Inc. can develop the strategy, implementation and execution to make Mason Tennessee economic value increase now and over time. Our vision is clear; we can see the target market and we know our capabilities. Orgen Global Inc. possess the knowledge, skills and abilities to align Mason's history and future into a success.

Who are we? Orgen Global Inc. has variety of specialities: Financial Management, Project Management, Engineers, Construction, Architects, Executive Protection, Movie Production, Music Production, Book Publishing, Research & Development, and Travel (Cruises and Leisure) under our umbrella that are crucial to tying cities/towns together for goods and services. For example, Flint Michigan is where Orgen Global is taking the lead in mitigating the toxic water and making it potable water. The matrix of integration would result in better economic conditions for imports and exports for businesses. Whether it's transportation, better schools or housing, a clear and purposeful vision will entice a variety of journeymen and professionals to seek a home and future for their families. Orgen Global Inc. can utilize modern technological tools to forge the future and sustain functionality and practicality.

Respectively,

Daron Horne  
President, Orgen Global Inc
